

A little guide to your next shoot.

Event photography, portraits and product stories by Bianca L., a fictional photographer in the Nearra demo.

Before we meet

Share the date, the setting and the moments you would love to remember. A short shot list helps us make the most of our time together.

On the day

Relaxed portraits, thoughtful details and candid moments. There is space for both a clear plan and the unexpected.

After your shoot

A carefully edited gallery that is ready to save, share and print.

Let's make something you'll love looking back on.
